

Appendix E: Internet Vision Statements

- Current statement (11)
- The above is good except that it should mention the word "visit" somewhere in recognition of our number one industry. (2)
- Progressive and responsive needs to be added to the vision statement.
- Culture should be part of the visioning statement.
- I like the statement given as an example but I think it should contain something about our beaches, as this is one of the reasons a lot of us came to Clearwater.
- It should include the requirement that Clearwater city employees are held to high standards of professional, effective conduct at all times, with training current to meet increasing needs.
- Clearwater is a melting pot of citizens, opportunities and community activities that offer enough diversity for everyone.
- Clearwater - A LOW KEYED PARADISE
- "Clearwater is a beautiful community that is a wonderful place to live, work and play." Leave off the "Sparkling"
- Clearwater, a community that has the benefits of a city in employment, housing, education, business and culture with the friendly lifestyle of a boutique resort benefiting both resident and visitor in a quality standard of living.
- Clearwater, the American Dream at its finest.
- A city of commerce, environmental awareness and sensitivity, culture, entertainment, thriving neighborhoods, and opportunities for all who desire to live the dream.
- Great businesses, great jobs, and sparkling CLEAR water.
- Aim for the beach with a clear view of the water. Take the monorail to the beach and the downtown.
- Clearwater endeavors to be "the" place to live and "the" place to visit. A city where the community's needs are put first, and are second to none.
- I would like to see Clearwater be an example to surrounding cities of what a beautiful, clean, and well-maintained city can be, a city whose government really listens to the residents' concerns and acts accordingly
- Clearwater values the health and safety and prosperity of its Citizens, investing cost-effectively in meeting those needs.
- The city of Clearwater strives to have an environmentally aware, safe and pleasant place to live and visit. We want to be on the cutting-edge in these areas as well as providing safe, well-lit streets and parks for residents and visitors to enjoy, as well as educate the public and provide cultural and educational opportunities for our residents to get involved in where they live so that they can be truly proud!

- The new Clearwater will focus on revival of its most precious jewel, historic downtown. Our thriving downtown will be a place for all citizens to come, relax, and enjoy. A movie theatre, shops, restaurants and enlarged coachman park will all serve as magnets to again draw people back to downtown Clearwater. Reconfigured portions of the Pinellas Trail will provide recreation in a now underutilized area. Along with the rest of Clearwater, which is thriving and improving, downtown will now join also and be the asset that it once was.
- Clearwater is a uniquely beautiful, diverse, vibrant community where the diversity of its residents and visitors is celebrated and where the vision is to progress, plan and grow into a more successful and vital community.
- Clearwater is well run with government providing the essential services and allowing residents to live freely with a minimum of government interference. Those who wish neighborhood enhancements beyond sidewalks, code enforcement above life-threatening conditions, and interference with the ability to enjoy one's property must live in deed-restricted communities.
- Sparkling Clearwater is a safe and clean place to live, work, learn and play, and is committed to its unique neighborhoods and diversity.
- Sparkling, Ecologically Sensitive Clearwater....."
- Vision for city ...City employee's pay raised. City Growing by adding tourist/residence business to the downtown area.
- Clearwater is a cult free, safe and prosperous community with a laissez faire, laissez-passer attitude.
- To represent all cultures, races and diversities in providing a safe clean environment, adequate diversified housing, superior education, improved transportation, excellent city services, and fairness to all its citizens.
- Clearwater the best place to live, eat and sleep and enjoy life.
- Stop folding in to contractors and giving them variances so they can go higher and wider and build up to the sidewalk like on Cleveland St. & Fort Harrison. Where is the green???
- Build parking garages on beach & in downtown!!
