

Existing Conditions

The following sections of *Shifting Gears: A Bicycle and Pedestrian Master Plan* present the City's Existing Conditions.

The Existing Conditions Chapter includes evaluations of the bicycling and walking characteristics of the residents of Clearwater, existing policies, existing education programs for bicycles and pedestrians, existing trails and existing roadway conditions.

This chapter provides an important perspective and helps to establish the baseline for the Master Plan and Implementation Plan development. The Existing Conditions chapter demonstrates that the City of Clearwater already has programs in

Nothing compares to the simple pleasure of a bike ride.

~John F. Kennedy

place to support a comprehensive bicycling and walking environment. As a baseline, the Existing Conditions analysis is used in this Master Plan to compare the desires of the community as iterated through the Goals and Objectives to what is presently provided.
