STEVENSON CREEK WATERSHED MANAGEMENT PLAN

FINAL REPORT

SECTION	Page
<u>SECTION 1.0 INTRODUCTION</u>	1.1-1
1.1 What is a Watershed Management Plan?	1.1-1
1.2 The Benefits of a Watershed Management Approach.....	1.1-2
1.3 The Stevenson Creek Watershed	1.1-2
1.3.1 Watershed Location and Description	1.1-2
1.3.2 Basin History	1.1-4
1.4 Project Objectives.....	1.1-6
SECTION 2.0 EXISTING CONDITIONS ANALYSIS AND PROBLEM IDENTIFICATION	2.1-1
<u>2.1 Flooding Conditions Assessment and Problem Identification</u>	2.1-1
2.1.1 Watershed Model Selection	2.1-1
2.1.2 Hydrologic Model Development.....	2.1-2
2.1.2.1 Subbasin Delineations	2.1-3
2.1.2.2 Land Use	2.1-5
2.1.2.3 Impervious Areas	2.1-9
2.1.2.4 Runoff Curve Number	2.1-9
2.1.2.5 Time of Concentration.....	2.1-15
2.1.3 Hydraulic Model Development	2.1-15
2.1.3.1 Drainage Facility Inventory	2.1-16
2.1.3.2 Channel Cross-Section and Floodplain Definition.....	2.1-20
2.1.3.3 Storage Node Stage-Area Relationships.....	2.1-21
2.1.3.4 Model Schematic	2.1-22
2.1.3.5 Boundary Conditions	2.1-24
2.1.4 Model Calibration and Verification	2.1-25
2.1.4.1 Introduction.....	2.1-25
2.1.4.2 Streamflow and Precipitation Gaging Data	2.1-25
2.1.4.3 Selection of Calibration/Verification Storm Events.....	2.1-27
2.1.4.4 Calibration Parameters and Results	2.1-29

TABLE OF CONTENTS (CONTINUED)

SECTION	Page
2.1.5	Flooding Conditions Assessment 2.1-37
2.1.5.1	Design Storm Events..... 2.1-39
2.1.5.2	Existing Flooding Conditions 2.1-39
2.1.5.3	Flooding Level of Service Criteria 2.1-41
2.1.5.4	Flooding Problem Identification..... 2.1-43
<u>2.2</u>	<u>Natural Resources Assessment and Problem Identification</u> 2.2-1
2.2.1	Introduction 2.2-1
2.2.2	Existing Conditions 2.2-2
2.2.3	Wildlife..... 2.2-12
2.2.4	Endangered and Threatened Species..... 2.2-12
<u>2.3</u>	<u>Water Quality Assessment and Problem Identification</u> 2.3-1
2.3.1	Existing Data 2.3-2
2.3.1.1	Existing Monitoring Programs..... 2.3-4
2.3.1.2	Other Existing Data 2.3-6
2.3.2	Monitoring Program 2.3-9
2.3.2.1	Monitored Basins..... 2.3-9
2.3.2.2	Hydrologic Monitoring 2.3-10
2.3.2.2.1	Water Quality 2.3-17
2.3.3	Water Quality Characteristics 2.3-17
2.3.3.1	Petroleum Hydrocarbons 2.3-24
2.3.3.2	Oxygen Demand 2.3-25
2.3.3.3	Solids 2.3-28
2.3.3.4	Metals 2.3-28
2.3.3.5	Nutrients 2.3-33
2.3.3.6	Bacteria..... 2.3-34
2.3.4	Nonpoint Source Loading..... 2.3-34
2.3.4.1	Runoff Coefficients..... 2.3-37
2.3.4.2	Event Mean Concentrations 2.3-40
2.3.4.2.1	In-Stream EMCs..... 2.3-40
2.3.4.2.2	Existing Stormwater Runoff Treatment 2.3-41
2.3.4.2.3	Landuse-Based EMCs 2.3-43
2.3.4.3	Results..... 2.3-46
SECTION 3.0	RECOMMENDED MASTER PLAN IMPROVEMENTS 3.1-1
<u>3.1</u>	<u>Flood Protection, Water Quality, Habitat, Erosion and Sedimentation Improvements</u> 3.1-1
3.1.1	Subwatershed 1: Spring Branch 3.1-5

TABLE OF CONTENTS (CONTINUED)

SECTION	Page
3.1.2	Subwatershed 2: Lower Stevenson Creek 3.1-22
3.1.3	Subwatershed 3: Middle Stevenson Creek..... 3.1-30
3.1.4	Subwatershed 4: Upper Stevenson Creek..... 3.1-35
3.1.5	Subwatershed 5: Hammond Branch 3.1-43
3.1.6	Subwatershed 6: Lake Bellevue Branch..... 3.1-52
3.1.7	Subwatershed 7: Jeffords Street Branch..... 3.1-58
<u>3.2</u>	<u>Human-Sourced Fecal Contamination Study</u> 3.2-1
3.2.1	Purpose of Further Study..... 3.2-1
3.2.2	Plan of Study 3.2-2
3.2.3	Dissemination of Results to End Users 3.2-3
<u>3.3</u>	<u>Recommended Watershed Maintenance Plan</u> 3.3-1
<u>3.4</u>	<u>Public Awareness and Involvement Programs</u> 3.4-1
3.4.1	Adopt-a-Creek Program for Stevenson Creek 3.4-1
3.4.2	Proper Use of Pesticides and Fertilizers..... 3.4-2
3.4.2.1	Pesticide Use..... 3.4-2
3.4.2.2	Fertilizers 3.4-3
3.4.3	“Green” Thumb Landscaping Practices 3.4-3
3.4.4	Florida Yards and Neighborhoods Program..... 3.4-4
3.4.5	Storm Drain Marking Program..... 3.4-5
<u>3.5</u>	<u>Exotic Plant Eradication Program</u> 3.5-1
3.5.1	Brazilian Pepper 3.5-2
3.5.2	Australian pine 3.5-3
3.5.3	Melaleuca 3.5-3
3.5.4	Other Exotics..... 3.5-4
3.5.5	Estuary Restoration Plan 3.5-4
3.5.6	Summary and Recommendations 3.5-5
<u>3.6</u>	<u>Legal and Regulatory Framework</u> 3.6-1
3.6.1	U.S. Army Corps of Engineers 3.6-1
3.6.2	U.S. Environmental Protection Agency 3.6-2
3.6.3	Federal Emergency Management Agency 3.6-2
3.6.4	Southwest Florida Water Management District Florida Department of Environmental Protection..... 3.6-4
3.6.5	City of Clearwater..... 3.6-4
<u>3.7</u>	<u>Capital Improvement Cost Estimates</u> 3.7-1

TABLE OF CONTENTS (CONTINUED)

SECTION	Page
<u>SECTION 4.0 WATERSHED MANAGEMENT PLAN PROJECT</u> <u>PRIORITIZATION</u>	4.1-1
<u>SECTION 5.0 REFERENCES AND BIBLIOGRAPHY</u>	5.1-1
5.1 Drainage, Hydrology, and Flood Protection.....	5.1-1
5.2 Water and Sediment Quality.....	5.1-3
5.3 Natural Resources.....	5.1-4

TECHNICAL APPENDICES

VOLUME I

- APPENDIX A ADICPR HYDROLOGIC INPUT DATA SUMMARY
- APPENDIX B ADICPR HYDROLOGIC AND HYDRAULIC MODEL INPUT AND OUTPUT DATA FILES, CALIBRATION STORM EVENTS
- APPENDIX C ADICPR HYDROLOGIC AND HYDRAULIC MODEL INPUT AND OUTPUT DATA FILES, EXISTING CONDITIONS

VOLUME II

APPENDIX D EXISTING CONDITIONS LEVEL OF SERVICE EVALUATION

- APPENDIX E ADICPR HYDROLOGIC AND HYDRAULIC MODEL INPUT AND OUTPUT DATA FILES, PROPOSED CONDITIONS

APPENDIX F PROPOSED CONDITIONS LEVEL OF SERVICE EVALUATION

VOLUME III

- APPENDIX G URBAN HYDROLOGY FOR SMALL WATERSHEDS (TR-55) CHAPTERS 1-3

APPENDIX H CAPITAL COST ESTIMATES

- APPENDIX I WATER QUALITY MONITORING DATA

APPENDIX J BACTERIAL SOURCE TRACKING STUDY

APPENDIX K POLLUTANT LOADING MODEL INPUT AND OUTPUT DATA

Subbasin Loading – BOD

Subbasin Loading – Nitrogen

Subbasin Loading – TSS

Subbasin Loading - Phosporus

APPENDIX L PUBLIC MEETING QUESTIONNAIRES
